Template Tips & Tricks

❖ For more detailed guidelines, please [refer to this PDF](#).

Where can I find brand visuals and graphics?

1. Browse the [Brand Library Airtable](#) (log in using your Google account)
2. Look for the *Illustrations* and *Photos* tabs at the top
3. Click on the visual you want and download it. The download button is small, so keep your eyes peeled!

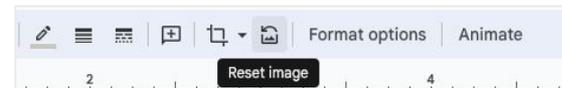

How do I change the image on a slide?

1. Right click on the image you want to replace
2. In the menu, click *Replace image > Upload from computer*
3. Double-click the image to resize/reposition it within the frame

Be sure to hold down the *Shift* key while resizing, so as not to stretch or distort the image

If you've distorted it, just click the *Reset Image* option in the menu to restore the original size/aspect ratio

Template Tips & Tricks

❖ For more detailed guidelines, please [refer to this PDF](#).

How do I change the slide layout?

1. A variety of layout designs have been provided as part of this template
2. In the menu bar, click on *Layout*
3. Note the labels under each layout – these indicate the intended context of use (e.g. “Cover”, “Content”, etc.)
4. Select the layout you want to use
5. Add your text in the placeholder text boxes. Click on the placeholder image frames to upload visuals

How do I change the cover slide?

1. In the menu bar, click on *Layout* and look for any designs with (A) *Cover* in the name
2. It's entirely your preference whether to use the full photo cover, the half-photo, or the illustration cover
3. Cover images can be changed through the Theme Builder, but we recommend using the pre-existing images for brand consistency
